

Gordon E. Eubanks, Jr.
Pebble Beach, CA

Biography

From April 1999 to March 2005 Gordon Eubanks served as president and CEO of Oblix, a private software company. Eubanks managed the company's rapid growth and established its position as the industry's leading provider of enterprise identity management solutions. In March 2005 Oblix was sold to Oracle Corporation. Since 2005 he has been doing private investing and working with startup companies.

From 1984 to 1999 he was president and chief executive officer of Symantec Corporation (NASDAQ: SYMC). During his tenure, Symantec evolved into one of the world's most prominent security software companies. He was a commissioned officer in the U.S. Navy, serving in the Nuclear Submarine Force from 1970 to 1979.

Gordon is retired and serves on the board of the public company Concur Technologies, Inc. (NASDAQ: CNQR). He is also on the board of directors of a number of private technology companies and frequently advises emerging technology companies.

Eubanks collects, researches and studies the first two issues of the United States: the issue of 1847 and the issues of 1851-1856. He has exhibited both of these issues and both have won national Grand Awards. His exhibit of the Issue of 1847 won the American Philatelic Society's Champion of Champions in 2012 and a large gold award at Australia 2013.

Eubanks has been active in the philatelic community over the last 15 years currently serving on the board of the U. S. Philatelic Classics Society and is a member of The Collectors Club, the Royal Philatelic Society London and other organizations. Eubanks is also a member of the Council of Philatelists of the Smithsonian National Postal Museum. He also served on the board of the Philatelic Foundation for two years. Eubanks has written a number of articles for the Chronicle of U. S. Classic Postal Issues in both the 1847 and 1851 sections. He is the Assistant 1847 Section Editor and soon to be the 1847 Section Editor.

Eubanks received his Bachelor of Science degree in Electrical Engineering from Oklahoma State University (1968) and his Master's degree in Computer Science from the Naval Postgraduate School (1976) in Monterey, California. In 2005, he was elected to the Hall of Fame of the Oklahoma State University Engineering School and in 2012 received a Distinguished Alumni Award from the Naval Postgraduate School.
