

Gail Saadi  
Functions and Activities Chair

Having traveled extensively to national stamp shows, beginning in Dallas, Texas in 1986, I have seen how activities and functions are handled in many different venues in the United States, and subsequently in many different international shows around the world.

I owe a world of gratitude to the friends I've made along the way. They have shared their opinions and suggestions, on how to improve the experience; especially for the non- collectors. I feel it is very important for the friends and family of collectors to also enjoy New York to its fullest extent.

As a lifelong New Yorker, I look forward to sharing with the world what New York has to offer.
