

New York

international stamp show

28 May to 4 June 2016
Javits Center, New York, USA

Australia Post will be at the international stamp show in New York. The Philatelic team hopes to catch up with many attending collectors. We will produce the following collectables for the show.

Show-only products

- Each day of the show, a limited number of minisheets will be sold onsite while stocks last. From day 2 to day 6, different finishing techniques and selvedge designs will distinguish the minisheets released each day.
- A limited number of the standard show minisheets with overprinting will be sold each day as cancelled to order (CTO), including on days 7 and 8.

Limited daily release sets available 4 June 2016 to Australian collectors

- At the show's conclusion, a limited number of the daily release minisheets will be offered to collectors in a set of six by mail order and only while stocks last. These item sets will not be part of any standing order.
